Training Manager

October 24, 2012

Date

Consortium for Workforce and Economic Development
New Jersey Council of County Colleges
330 West State Street
Trenton, NJ 08618

October 22, 2012

Dear Dominick Natoli:

Congratulations on successfully completing the combined EPA/DCA Lead and Safety training program. Enclosed are the two certifications you earned as a result of the training:

New Jersey Regulations on Lead Safe Work Practices
EPA Renovator Initial

This program is subsidized by a grant from the New Jersey DCA in order to provide all NJ contractors and multiple dwelling owners with these certifications at an affordable tuition rate. The program funding is limited and we would encourage you to inform your colleagues of our training. The goal of the colleges and DCA is to train and certify as many NJ contractors, renovators and landlords as possible over the next several months while funding lasts.

Once again, congratulations on acquiring your certifications and thank you for helping us get the word out to your colleagues in the industry.

Sincerely,

Dean Anbarasan
Project Manager
